FABRIZIO CONTU

FRONTEND DEVELOPER

654 413 214 fab.contu@gmail.com   Barcelona - Spain

Linkedin   Github   Portfolio

SUMMARY

Front-End Developer with solid experience in HTML5, CSS3, JavaScript, React, and Web Accessibility (WCAG standards). Skilled in UI/UX design system, responsive design, SEO optimization, and WordPress development. Proven track record in building accessible and scalable interfaces for digital platforms and develop solutions for them.

WORK EXPERIENCE

Web Developer, LA IGUALITARIA, Barcelona   02/2024 - Present

Developing and maintaining a functional, accessible website for a Barcelona-based cooperative, with a strong focus on modern UX, performance, and WCAG-compliant accessibility.
Currently evolving the platform into a Headless WordPress architecture, where I manage structured content using Custom Post Types and develop backend logic with PHP, while keeping the React.js frontend fast, interactive, and fully decoupled.

- Frontend Development: React.js, JavaScript, JSON, HTML
- Backend Development: WordPress Headless, PHP, Custom Post Types, REST API
- Design & Styling: Tailwind CSS, Responsive Design
- Accessibility & SEO: WCAG best practices, semantic structure
- Architecture: Decoupled frontend + WordPress backend

Front-end Developer, IT ACADEMY   02/2024 - 09/2024

Code review, refactoring, and feature development for a web project built by IT Academy Bootcamp graduates. Working in an agile environment with a Product Owner and Scrum Master, ensuring clean, maintainable code while enhancing functionality and applying real-world development practices.

Technologies & Tools Used:
- Frontend Development: React.js, TypeScript, HTML, JSON
- State Management & Testing Tools: Context API, Redux, Vitest, Jest
- Design & Styling: Tailwind CSS, DaisyUI
- Collaboration & Methodologies: Cross-team collaboration with Back-End, agile methodologies (SCRUM), SOLID principles, RESTful APIs.
- Version Control & CI/CD: Git, GitHub

Web Master, Cervezartesana.es, Barcelona   03/2021 - 03/2023

After migrating the platform from Magento to WordPress, I managed site functionality and enhanced user experience. I implemented and configured WooCommerce with 1,000+ products, integrated a dropshipping system, and optimized SEO, boosting organic traffic and search rankings, driving online store growth.

Key Achievements:
- Implemented WooCommerce: Installed and configured 1,000+ products, adapting the platform to a dropshipping system to optimize inventory and logistics.
- Optimized SEO: Applied strategies that increased organic traffic and improved search engine rankings.

Co-Founder, Slow4, Barcelona 05/2017 - 01/2022

Proud co-founder of Slow4, a digital platform promoting responsible and sustainable tourism in Catalonia. Led platform development using WordPress, ensuring usability and efficiency. Drove social impact by allocating booking proceeds to inclusive local projects, merging business innovation with social responsibility.

Key Achievements:
- Responsible Tourism: Co-founded Slow4 to offer unique experiences, promoting sustainability. Each booking supports inclusive local development projects.
- Digital Platform: Led the development and management of the platform, optimizing usability, efficiency, and CMS integration with WordPress.
- Social Impact: Drove significant social impact by allocating booking proceeds to transformative community projects.

Reception Manager, PremiumSuiteHotels, Barcelona   09/2006 - 03/2016

Streamlined customer service and reservationmanagement, leveraging Channel Manager to boost visibility. Directed staff training,ensured exceptional service, and translated website content into Italian, French, and German, driving international growth.
